

"MISSION EXCELLENCE"

700 12th St. NW, Suite 700, Washington, DC 20005

Serena Washington, CEO • 202.681.0664 • swashington@washingtdefense.com

Corporate Overview

Washington Defense Corporation provides high-security mission-critical IT, Program Management, Engineering, and Intelligence services to the Federal Government.

WDC manages Defense, Homeland Security, and Intelligence Community programs with ready-trained cleared Veterans and civilians. We source, interview, contract, and onboard the most mission-critical and hardest to find STEM professionals both, CONUS and OCONUS, in time-sensitive situations. WDC runs full contract staffing as a solution to include employer of record, payroll funding, and benefits management. We have a full and robust staff located in Washington, DC with a database of 10,000 in-house cleared and pre-screened professionals, expansive social media and closed professional networks for 850,000 active Public Trust, Secret, TS/SCI, TS/ SCI Poly personnel.

Differentiators

We "Topgrade" using a STEM source selection board process to verify the capacity of each skill set required on a scale of 1-5. This process eliminates waste from mis-hires. Mis-hires are expensive. When combined with the cost of the initial recruitment, relocation, orientation, losses from mistakes, lost economic opportunity, as well as the cost of replacement, the tab for mis-hires can range from 20 to 200 percent or more of a departing executive's base salary.

Corporate Highlights

We increased F-35 Joint Strike Fighter Lightning II Program capacity by lowering turnover for mission-critical Test Pilots, Virtual Immersive Trainers, Systems Engineers, Program Managers, Foreign Military Sales Consultants, Acquisition Analysts, Cost Estimators, Logisticians, Mission System Software Developers, Cyber Security Professionals, Policy and Intel Analysts.
